## TV Photo Show

From Camera to TV, Just Insert the Card  
and Watch the Show

**D**igital cameras are great for taking lots of pictures, but to share the pictures you need to copy them to a computer. Imagine viewing your photos in the comfort of your living room with family and friends surrounding you. Wouldn't it be great if you could go from your digital camera right to your TV in just a few seconds? With the Dazzle TV Photo Show you can view pictures from most popular digital cameras right there on your TV.

### Key Features

**Instantly view digital photos on your TV**

**Accepts any CF or SM memory card**

**Displays images from virtually any digital camera**

**Up to 5 megapixel image size**

**Automatic Transitions**

**Remote Control for Use with Television**

**Transfer files to and from PC & Mac via USB**

**View and Manipulate Images on a Television:**

#### Thumbnails

Quick view of 12 images at one time in 4 columns and 3 rows. This allows for rapid and easy searching on your TV.

#### Display

View an image using your entire TV screen.

#### Zoom

When viewing an image, you can easily zoom in on image details up to 2 times normal resolution.

#### Pan

When viewing an image in zoom mode, simply pan the image to look at different regions.

#### Rotate

When viewing an image easily rotate it for the portrait orientation of your choice. This orientation can then be saved in the JPEG file itself.

#### Slide Show

Automatically view all images in slide show format.

#### Transitions

Random transitions between display of photos.

#### Delete

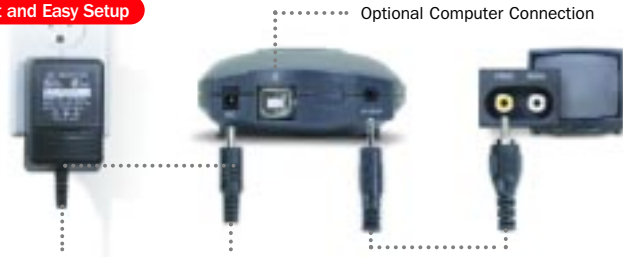

Unwanted images can be simply deleted from the memory card by using the delete button.

#### Remote Control Buttons

Thumbnail, Display, Slide Show, Delete, Rotate, Zoom In, Zoom Out, Next, Previous, Up, Down, Left, Right, OK, Cancel, Power.
